Terms & Conditions

Effective Date: 26 May 2025

Welcome to Affigo.online. By signing up for our Affiliate Program and accessing our services, including our decentralized wallet and Layer 2 blockchain network, you agree to the following terms and conditions:

1. Eligibility

- You must be at least 18 years old or the age of majority in your jurisdiction to participate in our affiliate program.
- All information provided during signup must be accurate, complete, and up to date.

2. Affiliate Program

- Affiliates are entitled to commissions as per the structure defined in their dashboard.
- Any misuse, fraudulent referrals, or spamming may result in termination of the affiliate account and forfeiture of any pending commissions.
- Commissions are paid in Solara Coin (SLC) or as per the company's payout model, and subject to the minimum withdrawal threshold.

3. Decentralized Wallet

- Affigo.online provides a self-custodial wallet (Blocksafe) where users are solely responsible for securing their private keys and recovery phrases.
- The company does not store or have access to any user's wallet credentials or assets.
- In case of loss of credentials, the company cannot recover funds or access the wallet on the user's behalf.

4. Layer 2 Blockchain

- Transactions on our Layer 2 blockchain are fast, secure, and incur lower fees, but are still subject to network congestion and third-party risks.
- The company may upgrade or modify the blockchain protocol without prior notice to improve security or performance.
- Users agree to comply with local regulations and not to use our blockchain for illegal or prohibited activities.

5. Privacy Policy

- We collect only the necessary data to provide our services and do not share personal information with third parties without consent, except when required by law.

6. Limitation of Liability

- Affigo.online is not liable for any direct, indirect, or incidental damages arising out of the use of our services, including but not limited to wallet loss, affiliate income fluctuation, or blockchain transaction failure.
